

*HMD LECTURE: Wednesday, December 9, 2015*

**Money Is Energy<sup>®</sup>—Healing Your Relationship with Money<sup>™</sup>**

*Presented by Robert Matthews*

My intent is to show you how money works energetically from a practical point of view. You will be able to use everything you have learned here at BBSH to help you apply these tools in your everyday life. Nothing airy fairy or mystical about this, just down-to-earth simple practical information that you can use immediately when you leave the lecture. I will use my own life experiences, that of my clients and of my golden retrievers. What I present works. I know because I have done this many times myself as well as with my clients. And more importantly, I have tried everything else that doesn't work. I only ask of you two things when you come to the lecture. One, don't believe a word I say. Use it and see for yourself. Two, at the beginning of the lecture, please take your rational logical mind out of your head and place it gently on the floor beside you. You won't need it for the next hour and a half. Then please pick it up and take it with you upon leaving.

You can decide what to do with it once you leave. As I said, I know it works for me. Now let's see if it will work for you, too!
