

## Randall Segal

With creative insight and wholeheartedness, I offer you a natural, restorative and genuine healing experience. My personal journey of self-discovery led me to the restorative power of energy work, which eventually took me to the Barbara Brennan School of Healing. In 2012, I graduated from the school's four-year Bachelor of Science degree program in Brennan Healing Science. I am continuing my education in the Brennan Advanced Studies Program. I have also qualified in Reiki Levels One and Two.

During my 30 years in hospitality management, I honed my gifts in the fine art of human interaction and dynamics. I am intuitively aware of what a person's needs are in the moment

I am naturally empathic and supportive. I carry a solid presence in the healing world and am committed to walking beside you with love and support in your quest for physical, emotional and spiritual recovery. I look forward to creating a safe and healing space for you to do your transformational work.

*"Doing this work with Randall is such a pleasure; he holds a supportive, amazing space for me. I can't thank him enough for helping me to regain my Self."*
